1. There were no hangars at Kecskemet (Y 6/N 95) airfield. The planes were parked in the open. Hungarian soldiers were seen in five or six barracks buildings at the field. *

25X1A * [REDACTED] Comment. This is the first report received from the Kecskemet area since January 1949. The information must refer to the Kecskemet-Fagy Bugag airfield located south of the town, since the airfield north of the town is provided with three hangars, a concrete runway and a number of other installations. According to press reports, the 1st Hungarian Ftr Regt is located at the Kecskemet airfield. According to a newspaper report of 26 February 1951, two Hungarian fliers escaped from there in a Soviet fighter plane to Regensburg, Western Germany. The airfield may be used as an alternate field or training field by the air unit stationed at the main Kecskemet airfield.
